

Tips for Snowsports Club **SUCCESS!**

Dress in Layers to Stay Warm!

Having warm socks, extra base layers, and moveable clothing makes a big difference under your outerwear.

Waterproof Outwear

Be sure to bring **waterproof** winter jacket, snow pants, and gloves each week. A face/neck gaiter and helmet/hat go a long way for keeping the heat in.

Fuel for the Slopes/How to Eat at the Mountain

There are dining options on site. Students should plan ahead for meals while at the mountain. Parents can load funds onto the students Gateway card, purchase a gift card to be used at the register, load money onto their students fingerprint account, or send them with cash/ a card. They can also pack food and store it at their snowsports club table.
